

Q8 COLOR-LR

Cinematic LED Fresnel Light

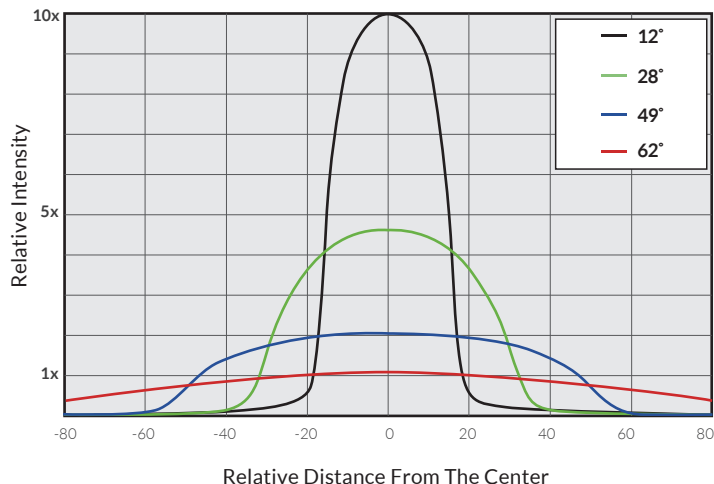

The **Q8 COLOR-LR** (LumenRadio) is a 320W 8" LED Fresnel that generates high-quality full-color light output. This fixture uses the latest iteration of Fiilex's Dense Matrix LED technology to deliver color fidelity and optical versatility that are superior to previous generations of LED fresnels. With an extremely wide spot/flood range, smooth dimming to 0%, no flicker, and high CRI, the Q8 COLOR-LR combines the extensive feature set of top-tier RGBW LEDs with the beauty and shapableness of a tungsten fresnel.
